

The HSC.
Inspired by you.

Welcome

Director's message

Bradfield Senior College is a senior high school specialising in the creative industries.

We cater for students in years 11 and 12 and provide an independent, personalised approach in an adult style learning environment.

Bradfield encourages:

- a deeper level of collaboration between students and teachers as a segue into the work environment
- greater autonomy and an active role in all areas of managing the college
- the development of 21st century skills in critical thinking, collaboration, communication and creativity to better equip them for life after the HSC.

Our school's philosophy is underpinned by the Bradfield Learning Culture Framework which encompasses a Mental Health and Wellbeing strategy, continuous improvement in teaching and learning and collaborative discipline policies.

As well as a strong academic focus, our aim is for students to be inspired, innovative and connected.

We look forward to welcoming you to the Bradfield Senior College community.

Meredith Melville-Jones

The Bradfield Cultural Principles

Everyone has a story

We're always open to learning

Everyone is valued

We're respectful and genuine

We all make Bradfield

The Bradfield advantage

Dedicated teachers who are experts in their field

An adult learning environment – no uniforms or bells

Small class sizes

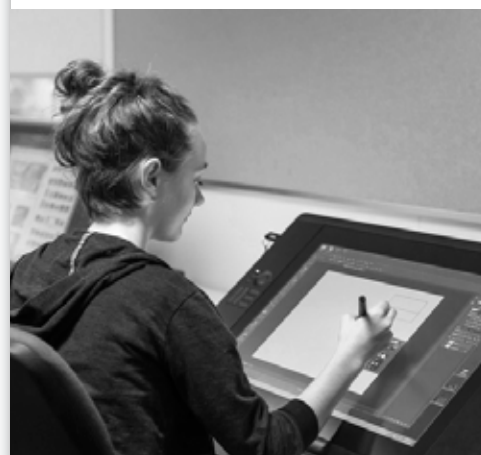

Individual mentoring

Personal career planning and study support

Flexible HSC over 2-4 years

TAFE diploma and degree pathways to design, digital media, hospitality, retail, allied health and other careers

University pathways through ATAR

Student profile

Name: Viola Iida
Subject: HSC Dance
Year: 2013
Result: First in NSW

Viola Iida can't remember a time that she didn't love to dance.

When her school was unable to offer Dance as an HSC subject, she chose Bradfield Senior College and our external dance class.

Viola knew she would be in excellent company with our reputation as a Performing and Creative Arts centre of excellence and she flourished under the guidance of renowned Performing Arts Learning Coordinator Janet Leigh Ashiabor.

The result was first place in NSW for HSC Dance.

Viola continues to pursue her passion for dance and is in her pre-professional year with the Sydney Dance Company.

“My teacher Janet was so welcoming and put a lot of faith in me. She taught me everything I needed to know in preparation for my exams, and I felt confident that I could achieve the results I wanted, and I am happy to say that I did!”

TEACHER'S PERSPECTIVE

“I admire students who study dance as an art form. It demands an extraordinary level of commitment and tenacity. The dancer is expected to develop the skill and fitness levels of an athlete, explicitly follow the direction of a choreographer and emotionally engage an audience with an understanding of stage craft.”

Janet Leigh Ashiabor

Performing Arts

If performing, singing, acting, and dancing is what you want to do, then you just have to do it.

ARIANA GRANDE – Actress, singer, songwriter

The Bradfield performing arts program offers students a practical approach to the HSC while at the same time building a career in the performing arts industry. Bradfield's record of exceptional HSC results such as first, third and fourth in HSC Dance in 2013 and 16 nominations for Dance Callback in 2015, is a testament to this approach, and has seen graduates become successful performers, actors, dancers, musicians and TV presenters.

Bradfield prides itself on attracting teaching staff who are experts in their fields, working alongside industry professionals. Our facilities are purpose built and include a dance studio with sprung floor, music and radio recording studios, rehearsal rooms and a performance space with industry standard lighting and audio technology, and film and sound editing facilities.

Performing Arts students are provided performance opportunities at the college and in the wider community. Students perform at regional dance and drama festivals, band competitions, music gigs, film competitions, film festivals, culminating in a college run showcase highlighting the talents of all performing arts and entertainment students.

Biology & English

Design and Visual Arts

Design can be art. Design can be aesthetics.
Design is so simple, that's why it is so complicated.

PAUL RAND – Graphic designer and art director

Design and visual arts offer an incredible variety of careers in the ever evolving creative industries. Explore different fields while completing your HSC. You will develop creativity and critical thinking skills that will help you take advantage of the many opportunities in this area.

Our teachers are passionate artists and designers who are involved in their own professional practice and have industry experience.

We hold an annual Design and Visual Arts Exhibition to showcase the work of graduating students and we have access to industry experience through our artist in residence program. Our Design and Visual Arts students have been consistently featured in the annual HSC Art Express exhibition, and we have a student chosen to exhibit her major work in 2015/16.

Convert your ideas into prototypes and products using the latest technology such as a digital fabric printer, a plastic vacuum former and 3D scanner and printer. You can explore your creativity using the latest industry standard software and photographic equipment in our custom built design, visual art, photomedia and technology studios.

Storyboard/concept artist

Digital Media

After growing wildly for years, the field of computing appears to be reaching its infancy.

JOHN PIERCE – Engineer and author

Coding is the new black.

Digital media is a rapidly growing industry which requires motivated, imaginative graduates with an eye for detail and a willingness to work hard to achieve results. At Bradfield you can develop your STEM skills to industry standard and open up your options for employment and further study.

You will develop and build your own apps, develop skills in coding, create interactive multimedia products and learn project management skills. If you're more of a news journalist or a features writer, or prefer working behind the scenes, you can build and develop these skills at Bradfield.

At the Learning and Innovation Campus at St Leonards you'll also have direct access to further study pathways to diploma and degrees within the Northern Sydney Institute.

Business & Service Industries

“

People will forget what you said, people will forget what you did, but people will never forget how you made them feel. **MAYA ANGELOU**

”

The hospitality, tourism and events industries are leading employers and offer many different career paths, often with flexibility and opportunities for travel. All roles are customer focussed so you need great people and team skills.

Business subjects build your general knowledge and critical thinking while developing skills in research, problem solving and communication. These skills are all transferable in employment and further study.

Our sport and lifestyle programs encourage you to adopt a holistic approach to issues related to fitness, health and wellbeing both for yourself and your future clients.

You can also start a traineeship or apprenticeship while studying at Bradfield.

I love that it's the only school that I've really been able to choose every single subject that I want. It allows me to be myself. I love art and I get to do this subject every single day and it makes me want to come to school even more.
